

Pediatric Heart Transplant Society

Event Dates / Key Dates

Updated 10/08/2018

All forms have an 'Event Date' or 'Key Date' associated with the form. This date is what the system uses to sort the forms chronologically in the patient summary and is displayed for each form on the patient summary. If a form is sorting out of order, corrections to the event date can be made by opening the form, correcting, and resubmitting.

Complete **Patient Enrollment** Date of Birth **10/09/2013**
 Primary Etiology: **Cardiac Tumor** Updated By slende, 10/8/2018 3:07:23 PM

All 'Not Started' or 'In Progress' Forms will automatically sort to the top of the patient summary if a date has not been entered. Once a date is entered either for 'In Progress' forms or 'Completed' form the system will automatically sort the form appropriately.

Form	Key Date
Patient Enrollment Form	Date of Birth
1 Initial Patient Entry at Listing	Date of Listing
